An effective Anti-Spam & Virus solution for businesses of all sizes - **Contact us – 08452 572608**

About Spam

- The situation is only getting worse and you will get more Spam if your company has a website – that is how most Spam finds it's way to your e-mail address.
- Company reputations, personal reputations, time and money wasted. Lost revenue due to people having to filter through their e-mails to weed out useless Spam messages is calculated in the millions of pounds *per month!*
- Systems crashing, causing lost data and down-time due to servers being overloaded with data in the form of Spam, and the spreading of viruses and worms destroying data, records and systems, is calculated in the tens of billions of pounds *per month!*
- Ever been slightly worried by what messages / data / images may be hidden on your computer – things that have been sent through to your system that you know nothing about, but may be held responsible? It may sound alarmist, but it is unfortunately now a fact of everyday working life.

How It Works

- SpamStore is a hosted service - designed to stop emails that contain spam and viruses before they reach your company.
- All of your emails are sent through a series of intelligent filters to ensure you only receive the emails you want and need.

SpamStore Anti-Spam Filter

- SpamStore is a ground breaking anti-spam solution service that will clear your spam and mail delivered virus headaches forever, leaving you free to worry about the things that really matter in your company. It can weed out all unsuitable spam material, from pornographic images to mail promoting sex and drugs.
- The anti-spam software analyses your emails with a revolutionary spam filtering system, only routing the ones you want directly to your inbox, and destroying spam, viruses and other junk before they get anywhere near your computer.
- Not only will you be free of any unwanted spam mail, but your computer will run a lot smoother and stay clear of harmful internet junk forever.
- In 2001 8% of emails sent globally were spam
- Early 2008 50% of emails were spam
- Today 60%+ of emails are spam-and growing

An effective Anti-Spam & Virus solution for businesses of all sizes - **Contact us – 08452 572608**

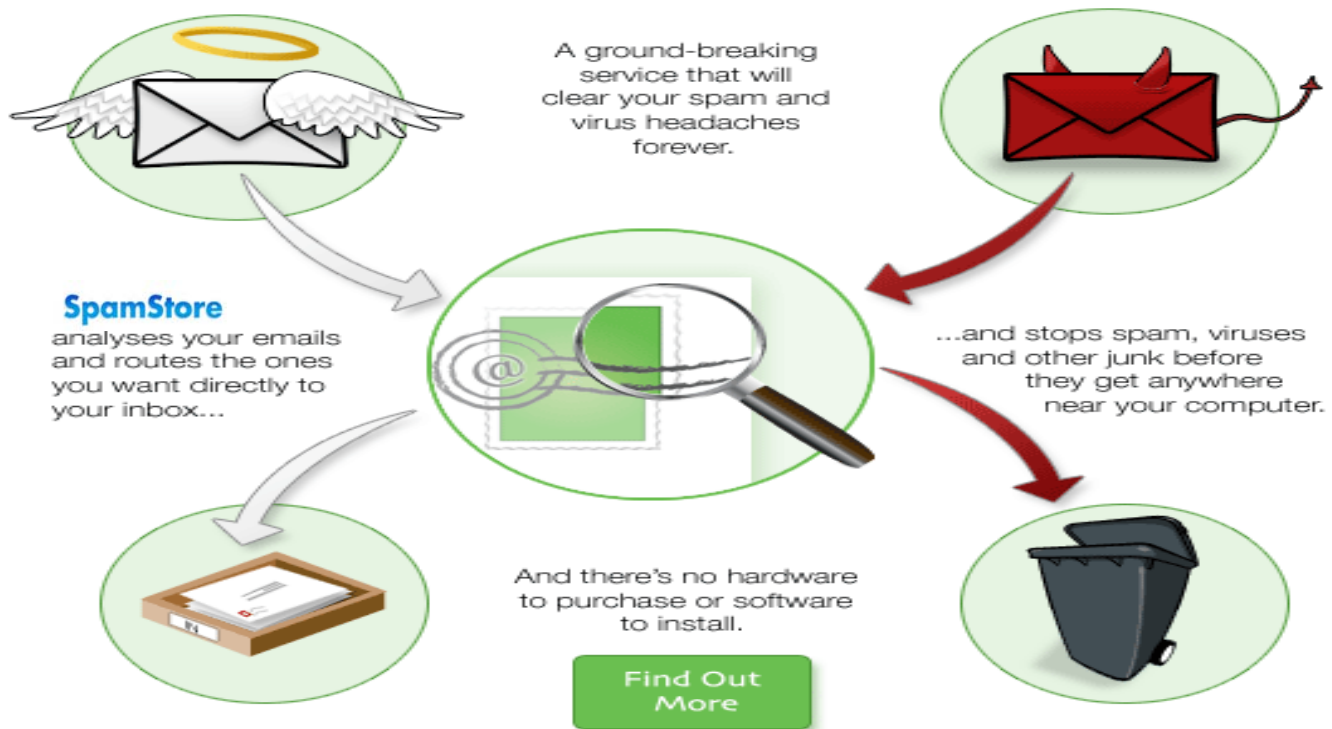

What does SpamStore do?

- Blocks 99% of Spam with only 0.0003% false positives (e-mail blocked that should have got through)
- Filters words – looks for ‘buzz’ words (Viagra etc...)
- Blocks 100% of viruses using multiple, not single, virus engines to scan inbound messages
- Filters images – weeding out pornographic and unsuitable imagery
- Outbound as well as inbound virus filters (protects your company reputation by stopping your company spreading viruses unknowingly)
- Managed 24/7 – no hardware / software / maintenance / no hassle (so lower costs)
- Dashboard provides complete visibility of what is being blocked – so you can create reports, audit the service, and control what is happening - by remote control via a portal on the website!
